# SAFETY DATA SHEET

### 1. Product and Company Identification

	T. Product and Cor			
Product identifier	Value Tab			
Other means of identification	Not available			
Recommended use	Condensate drain pan treatment			
Recommended restrictions	None known.			
Manufacturer/Importer/Supplie	r/Distributor information			
Manufacturer				
Company name Address	Away Chemical Corporation 12503 Exchange Dr. Suite 540 Stafford, Texas 77477 United States			
Telephone	800-243-0055			
E-mail	info@awaychem.com			
Emergency phone number	Medical: Chemtrac: Chemtrac Int'l:	800-228-5635 800-424-9300 703-527-3887		
	2. Hazards I	dentification		
Physical hazards	Not classified.			
Health hazards	Acute toxicity, oral		Category 4	
	Skin corrosion/irritation		Category 2	
	Serious eye damage/eye irritat	ion	Category 1	
Environmental hazards	Not classified.		0,	
OSHA defined hazards	Not classified.			
Label elements				
Signal word	Danger			
Hazard statement	Harmful if swallowed. Causes	skin irritation. Ca	uses serious eye damage.	
Precautionary statement				
Prevention	Wear protective gloves/protect Wash thoroughly after handling Do not eat, drink or smoke whe	g.	-	
Response	If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. Specific treatment (see this label). If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If swallowed: Call a poison center/doctor/physician if you feel unwell. Rinse mouth.			
Storage	Not applicable.	-		
Disposal	Dispose of contents/container	in accordance wi	th local/regional/national/ir	nternational regulations.
Hazard(s) not otherwise classified (HNOC)	None known.			
Supplemental information	0.27% of the mixture consists	of component(s)	of unknown acute oral toxi	city.
	3. Composition/Infor	mation on Ing	gredients	
Mixtures				
Chemical name	Common name and	d synonyms	CAS number	%
			57-13-6	40

Chemical name	Common name and synonyms	CAS number	%	
Benzyl-C12-18-alkyldimethyl ammonium chlorides		68391-01-5	21.6	
	4. First Aid Measures			
Inhalation	If inhaled: Remove person to fresh air and keep	comfortable for breat	thing.	
Skin contact	If on skin: Wash with plenty of water. If skin irrita contaminated clothing and wash it before reuse.		lical advice/attention. Take off	
Eye contact	If in eyes: Rinse cautiously with water for severa easy to do. Continue rinsing. Immediately call a	poison center/doctor.		
Ingestion	If swallowed: Rinse mouth. Do NOT induce vom	•		
Most important symptoms/effects, acute and delayed	Causes serious eye damage. Symptoms may in blurred vision. Permanent eye damage including			
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat give oxygen. Keep victim warm. Keep victim und			
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).			
	5. Fire Fighting Measures			
Suitable extinguishing media	Water spray. Fog. Foam. Dry chemical powder.	Carbon dioxide (CO2	?).	
Unsuitable extinguishing media	None known.			
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.			
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.			
Fire-fighting equipment/instructions	In the event of fire, cool tanks with water spray.			
Specific methods	Cool containers exposed to flames with water until well after the fire is out.			
General fire hazards	No unusual fire or explosion hazards noted.			
	6. Accidental Release Measu	res		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep out of low areas. Keep people away from and upwind o spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.			
Methods and materials for containment and cleaning up	This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways. Stop the flow of material, if this is without risk. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.			
Environmental precautions	Avoid discharge into drains, water courses or or	nto the ground.		
	7. Handling and Storage			
Precautions for safe handling	Do not get this material in contact with eyes. Do not get this material in contact with skin. Do not taste or swallow. Avoid prolonged exposure. Do not get this material on clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. When using, do not eat, drink or smoke. Wash hands thoroughly after handling.			
Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store away from i SDS).	ncompatible materials	s (see Section 10 of the	
	8. Exposure Controls/Personal Pr	otection		
Occupational exposure limits				
	nmental Exposure Level (WEEL) Guides		<b>F</b>	
Components	Туре	Value	Form	
Urea (CAS 57-13-6)	TWA	10 mg/m3	Total particulate.	

**Biological limit values** 

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product. Provide eyewash station.		
Individual protection measures,	such as personal protective equipment		
Eye/face protection	Wear safety glasses with side shields (or goggles) and a face shield.		
Skin protection			
Hand protection	Wear appropriate chemical resistant gloves.		
Other	Wear appropriate chemical resistant clothing.		
<b>Respiratory protection</b>	In case of insufficient ventilation, wear suitable respiratory equipment.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
General hygiene considerations	When using, do not eat, drink or smoke. Wash hands after handling and before eating.		

## 9. Physical and Chemical Properties

Appearance	Crystalline.
Physical state	Solid.
Form	Solid. Tablets
Color	Various
Odor	Coconut
Odor threshold	Not available.
	Not available.
pH Malting a single for a single	
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Pour point	Not available.
Specific gravity	0.981
Partition coefficient (n-octanol/water)	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	100 %
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.

## 10. Stability and Reactivity

Reactivity	Do not mix with other chemicals.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Chemical stability	Material is stable under normal conditions.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.

Image: Disposal instructions       Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This materia and its container must be disposed of as hazardous waste. Do not allow this material to drain int sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.         Local disposal regulations       Dispose in accordance with all applicable regulations.         Hazardous waste code       The waste code should be assigned in discussion between the user, the producer and the waste disposal or in a cordance with local regulations. Empty containers or liners may retain some products         Waste from residues / unused product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).         Contaminated packaging       Empty containers should be taken to an approved waste handling site for recycling or disposal.	Persistence and degradability	No data is av	ailable on the degradability of this prod	uct.	
Urea       -2.11         Mobility in soil       No data available.         Mobility in general       Not available.         Other adverse effects       No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. <b>13. Disposal Considerations</b> Disposal instructions       Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This materia and its container must be disposed of as hazardous waste. Do not allow this material to drain int sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.         Local disposal regulations       Dispose in accordance with all applicable regulations.         Hazardous waste code       The waste code should be assigned in discussion between the user, the producer and the waste disposal company.         Waste from residues / unused product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).         Contaminated packaging       Empty containers should be taken to an approved waste handling site for recycling or disposal.	Bioaccumulative potential	No data available.
